

LASER PARTS

Expedient, Economical, and Environmentally Friendly

Priefert Steel's industry-leading fiber laser cuts 3x faster than CO₂, and provides custom cut parts with a very high degree of accuracy and precision. No matter the order size, from prototypes to high volume production runs, your parts will be cut quickly and affordably.

Typical lead time 5 - 7 days

SHORT LEAD TIMES

GUARANTEED QUALITY

Flexibility & Cost Savings Potential

More cleanly cut small, intricate parts

Our automated sheet loading system can run minimally attended or even “lights out” to save labor costs

Fiber lasers have lower operating and maintenance costs

Our experienced staff can turn your CAD drawings into parts fast and efficiently

Additional fabrication, bending, and forming available

Laser number and design engraving / etching available

Fiber lasers allow for tighter tolerances
